Work Experience

ADSMN | 2023-present

Innovate Tech Company

- Joined as an intern and transitioned into a full-time role as a Full Stack Developer. Contributed to various high-impact projects for renowned brands like Cadbury, Kellogg's, and Milka. Designed and implemented innovative platforms and campaigns, leveraging cutting-edge technologies to enhance user engagement, boost brand visibility, and deliver scalable solutions tailored to client needs.
- I am currently expanding my expertise in Database and cloud technologies, particularly AWS. As part of an international virtual team, I am enhancing my skills in communication, teamwork, and automation while actively contributing to the success of various cloud-based initiatives.

Projects
