

MITR JOSHI

Software Developer L2 · React · Next.js · Node.js · AWS · 2.5 years · AI Platforms at scale (1M+ users)

Mumbai, India | 9372610230 | mitrjoshi26@gmail.com | linkedin.com/in/mitr-joshi

SUMMARY

Frontend-focused Software Developer with 2.5 years of experience building high-performance React and Next.js interfaces for production-grade AI platforms. Shipped systems serving 1M+ users for global brands including Coca-Cola (Maaza) and Ogilvy x Google. Specialises in React, Next.js, TypeScript, and Zustand, with a strong focus on accessible, performant UI and hands-on experience integrating Google Vertex AI (Gemini, Imagen, Veo) into real-world creative and enterprise workflows.

EXPERIENCE

Software Developer L2 · ADSMN Interactive

Apr 2025 – Present | Mumbai

- Architect and own end-to-end AI platforms powering image, video, and text generation for 1M+ users across consumer and enterprise products.
- Ensure high availability and fault-tolerant execution across all production systems.
- Lead frontend architecture using React, Next.js, and TypeScript, building responsive, cross-browser-compatible interfaces.
- Improved First Contentful Paint by ~25% through code-splitting, asset optimisation, and efficient state management with Zustand.
- Champion accessibility best practices (WCAG, semantic HTML, ARIA) across UI components to ensure inclusive user experiences.
- Design and maintain serverless cloud infrastructure on AWS (Lambda, S3, SQS, CloudFront), enabling zero-downtime deployments that reliably handle 3x peak traffic bursts.
- Automate build and deployment pipelines using AWS CodePipeline and CodeBuild, including CloudFront cache invalidation on release.
- Integrate Google Vertex AI (Gemini, Imagen, Veo) into production pipelines for 10K+ AI generations/month, with credit-based usage governance and per-user analytics.

Frontend Developer · ADSMN Interactive

Apr 2024 – Mar 2025 | Mumbai

- Built high-performance React and Next.js frontends for AI generation products used by 100+ internal and external users.
- Optimised backend APIs in Node.js and Express, achieving 20-35% latency reduction through query optimisation, caching, and async processing.
- Collaborated on database schema design and query optimisation using PostgreSQL and MS SQL.

Frontend Developer Intern · ADSMN Interactive

Oct 2023 – Mar 2024 | Mumbai

- Built and shipped UI features across live client projects using React.js, JavaScript, and Tailwind CSS.
- Promoted to full-time role after 6 months based on performance and impact.

KEY PROJECTS

Ogilvy x Google Vertex AI Studio: AI Tooling Platform

Dec 2025

- Built an internal AI platform for Ogilvy's global creative teams to generate images and videos at scale using Google Vertex AI (Gemini, Imagen, Veo).
- Sustained 10K+ AI generations/month for 100+ internal users.
- Maintained reliability during 3x traffic spikes in peak campaign periods.
- Designed credit-based governance that reduced creative iteration time from hours to minutes while controlling costs.

Maaza (Coca-Cola): My Small Win Campaign

Jun 2025

- Built backend systems for a consumer AI platform that turned real user stories into AI-generated 3D animated videos, scaled to 1M+ video generations.
- Engineered full AI pipeline: story parsing to avatar generation to animation rendering to delivery; achieved 30% lower generation latency at peak load.
- Delivered globally distributed, secure storage and media delivery via AWS S3 and CloudFront.

Fevikwik: AI Pack Campaign

Oct 2025

- Built a high-throughput AI generation platform converting user inputs into brand-compliant visual concepts via multi-stage AI pipelines, scaled to 1.1M+ AI generations.
- Designed modular services for prompt generation, image synthesis, and validation; reduced re-generation cycles by 35%.
- Achieved 3x backend throughput and 40% faster global asset delivery through async processing, job queues, and CDN optimisation.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, Zustand, Vite, Tailwind CSS, HTML, CSS, shadcn/ui, Material UI

Accessibility: WCAG 2.1, ARIA, Semantic HTML

Backend: Node.js, Express.js, RESTful APIs, Socket.IO, JWT Authentication

Cloud & DevOps: AWS (Lambda, S3, SQS, CloudFront, RDS)

CI/CD: AWS CodePipeline, AWS CodeBuild

Testing: Jest, React Testing Library

Database: PostgreSQL, MS SQL

AI & Platforms: Google Vertex AI Studio, Gemini, Imagen, Veo (API Integration)

Tools: Git, GitHub, Figma, FFmpeg, Notion

EDUCATION & TRAINING

Full Stack Web Development · ITVedant Institute, Mumbai

2022 – 2023

Professional Foundation in Science · Mithibai College, Mumbai

2019 – 2021

CERTIFICATIONS

AWS Certified Cloud Practitioner
